A trusted partner in a new environment
Your new job will be filled with challenges, so your stay in the Netherlands should proceed as easily as possible. We will gladly assist you with your financial needs, not just when you arrive, but from the moment you know you will be posted to the Netherlands. For more than 25 years, ABN AMRO has been the trusted partner for expats, diplomats, civil servants and international organisations.

To ensure that all your banking transactions proceed as smoothly as possible, ABN AMRO has a multilingual International Client Department to provide specific advice on payments, savings, insurance, credit cards, mortgages, loans and investments. And most important of all: on the rules and regulations for expats. However, ABN AMRO goes even further. We provide a full 24/7 service, Internet banking, apps and documentation, all in English. So you can always understand and be understood.

When you become an ABN AMRO customer, you will receive a complete package to manage your account: a debit card and various tools for secure online banking. You also can select additional products and services, such as a credit card.

If you become a Dutch resident, you initially need the following documents to open an account:
- Valid passport or EU identity card.
- Proof of employment.
- Home address in the Netherlands.

- Share your Tikkie via WhatsApp
**Insurance**

Becoming a resident means that you have to consider insuring yourself and your possessions in the Netherlands. We can offer you a wide range of insurances to make your stay in the Netherlands as comfortable as possible. You can easily take out your insurances yourself at abnamro.nl/insurance or arrange an appointment at abnamro.nl/expat.

**Home insurance**

Whether you buy or rent a house, the property and its contents need to be insured. A Home (contents) insurance policy covers the financial risks arising from fire, burglary and weather damage to your personal property, including everything in the garage and shed. If you own a house, you will need coverage to rebuild it if your home is damaged due to an unfortunate event. We offer both policies called Home insurance and Home contents insurance.

**Car and travel insurance**

From mandatory liability insurance to fully comprehensive, we offer the insurance that you will need for your car. A travel insurance policy is another essential. This insurance, which can cover all family members if desired, covers the loss or theft of luggage, medical costs and assistance, cancellation costs, and many other risks involved in travelling.

**Liability and legal expenses insurance**

A legal dispute can occur in many situations. For that reason, it is a good idea to have your legal costs covered by an insurance policy.

Our policies offer the following:

- Low costs and no excess.
- 24/7 advice from ARAG legal experts.
- World coverage for traffic cases.

Many people also take out a personal liability policy. This insurance protects you from claims initiated by a third party. This is not compulsory, like health insurance is, but it is a very cost-effective way to cover costs that could arise if you accidently damage someone else’s property.

**Saving products**

The Dutch are known for being careful with their money: they practically invented saving. There are countless ways to save money, such as with a monthly fixed amount or whenever your budget allows. You can save with a specific goal in mind, or put away an amount in case something unexpected occurs. You can save for yourself or your child or grandchild. The easiest – and most effective – way to save is by direct debit. You can arrange this online or through your advisor.
Investments

Like savings, investments are a way to increase the value of your capital. However, there are more risks involved when you invest. When done with care, the risks of investing are offset by stronger capital growth.

In the Netherlands, investment funds for consumers are closely supervised by the Netherlands Authority for the Financial Markets (Autoriteit Financiële Markten/AFM). Our investment advisors are required to strictly adhere to the rules; they have the proper qualifications and must pass examinations annually.

We offer different types of investing: from guided investing to self directed investing. Read more about our investment product and services at abnamro.nl/investments.

Credit and loans

Arranging credit

We offer two types of loans: personal loans (a fixed amount of money to be paid back in monthly instalments) and an overdraft (this allows you to exceed the balance in your account up to an approved limit). Whichever loan you choose, you must provide security for the money borrowed. For this purpose, we are legally required to consider your income, assets and liabilities.

If you are thinking about taking out a loan, please visit abnamro.nl/loans.

Buying a house in the Netherlands

If you are staying in the Netherlands for a longer period, buying a house may be an attractive option. If you are eligible for a mortgage, you could benefit from certain tax elements depending on your specific situation, consult a Tax advisor for more information. So, when you are thinking about where you want to live, also consider whether you would like to buy or rent.

You can choose from several types of mortgages. Visit abnamro.nl/mortgages for more information.
