 - ▶ contra account: a savings or current account in euros that you hold with the bank.
 - ▶ quarter: the periods from 31 December to 30 March, from 31 March to 29 June, from 30 June to 29 September and from 30 September to 30 December.

Interest on your Direct Kwartaal Sparen

- a. The bank calculates interest over the balance on your account. The interest rate can be positive, negative or zero.
- b. The bank can determine which interest rate applies to a certain account balance. In this way, balance classes are created. The interest rates and the balance classes are variable. The bank may change these at any time.
- c. A balance class can also apply to the combined balances on the current and/or savings accounts in your name and in the name of you and joint account holder(s). This is referred to as the total balance. The balance that you hold with joint account holder(s), will be divided in equal shares for each joint account holder in the calculation of their total balance.
- d. In the event of specific circumstances, such as developments in the money and capital markets, the bank can charge a negative interest rate on one or more balance classes.
- e. The bank calculates interest over the days that your balance was held in the savings account.
- f. The bank calculates bonus interest over the savings that are held on the savings account for an entire quarter.
- g. The bank also calculates bonus interest over the amount that you deposit during the quarter and that remains on the savings account until the end of the quarter.

- h. The bank calculates basic interest over the amount that you withdraw during the quarter, but only up to the moment of withdrawal.
- i. In the event that the interest rate is negative, the balance on your account may decrease as a result of deducting negative interest. Under such circumstances, you must take care to maintain a sufficient balance. If, as a result of this deduction, you end up overdrawn on your savings account without authorisation, you must immediately supplement this and you will pay debit interest.
- j. Your interest will be booked onto or deducted from your Direct Kwartaal Sparen account on 31 December, 31 March, 30 June and 30 September. The interest will be visible on your account after two working days.
- k. In the event of a negative interest rate, the bank can debit the total interest due from one of your current or savings accounts. The bank can debit negative interest per month or per quarter.
