- (7) Plus € 0.01 per transaction when uncompressed.
- (8) Request for cancellation of a batch or an individual transaction (after it has been sent to clearing). As a creditor of SEPA Direct Debit, you can submit a request for cancellation of a batch or an individual transaction once the batch has been sent to clearing. This request will be processed on a 'best effort' basis. Charges will be levied for each item in the batch.
- (9) Refusal SEPA direct debit (initiated by the debtor). Your customer can refuse your direct debit in advance, i.e. before the specified execution date. With SEPA Business to Business Direct Debit this is possible up to, and including, the specified execution date. The total amount of the direct debit batch you have provided is credited to your account. Individual items that have been refused are debited to your account as a 'refusal SEPA direct debit'.
- (10) Reject SEPA direct debit (initiated by the bank). The debtors bank can reject your direct debit before it is debited to your client. Individual items that have not been collected will be debited to your account.
- (11) Refund SEPA direct debit (initiated by the debtor). The debtor can refund your SEPA Core Direct Debit transaction within a period of eight weeks after the execution date.
- (12) Return SEPA direct debit (initiated by the bank). The debtors bank may, for various reasons, return your direct debit transaction after the direct debit has been executed. In the case of SEPA Core Direct Debit, this is possible for a period of up to five working days. The corresponding period for SEPA Business to Business Direct Debit is two working days. This results in a debit entry to your account.
- (13) In case of cross-border collections, some foreign banks charge a fee for rejected, returned or refunded SEPA Direct Debit transactions. We debit these extra costs directly from your account and they are on top of your regular rate.
- (14) Reversal of a batch or an individual transaction (after it has been processed). As the creditor of a direct debit batch or an individual transaction, you can request a reversal once the batch has been collected. This request will be processed on a 'best effort' basis. Charges will be levied for each item in the batch. A reversal must take place within two working days after the execution date.
- (15) This tariff will be charged to you as a creditor if an accusation of unauthorised direct debit, submitted by one of your clients, is granted. An accusation of unauthorised direct debit will be granted when, following a request from the bank, you are unable to submit a valid mandate within the prescribed period.
- (16) A direct debit contract may contain multiple direct debit types and multiple creditor accounts. However, the fee is always charged per contract.
