Product costs

Unpaid interest is usually included in ongoing charges as well. The investment fund calculates its ongoing charges per fund class over a period of 12 months and incorporates them automatically in the price of the investment fund. The ongoing charges are set out in the Key Investor Information Document (KIID) of the investment fund. This information is available at abnamromeespierson.nl/fondsen in the product information of the investment funds.

The other fees an investment fund charges for the management of the fund are listed in the Cost Information Sheet with additional information. See under the 'Costs' heading at abnamromeespierson.nl/zelf-beleggen-plus.

Orders in foreign currencies

If you place an order to buy or sell an investment product in another currency, we will convert the order amount into euros. We do so using the middle price at the time of conversion.

In addition, you pay a percentage depending on the currency. This includes the costs that ABN AMRO MeesPierson incurs to hedge and convert the foreign currency. You can find more information about the calculation and the key costs at abnamro.nl/ordervreemdevaluta.

Foreign taxes

Transactions conducted outside the Netherlands may be subject to tax. We will include this tax directly in your order. We will then pay the tax to the foreign tax authority. Frequently occurring foreign taxes on the value of buy transactions are:

- United Kingdom: 0.50% stamp duty
- Ireland: 1.00% stamp duty
- France and French companies: 0.30% financial transaction tax (FTT)
- Italy and Italian companies: 0.10% financial transaction tax (FTT)

Examples include:

- Costs for back-office services provided on your instructions, such as delivering investment products to another bank.
