

# List of Stock Exchanges

# List of Stock Exchanges

Next you will find a list of stock exchanges. This list was determined according to the 'ABN AMRO Order Execution Policy'. For each type of investment product, you will see the following:

- ▶ What the most important stock exchanges are; and
- ▶ Which brokers the bank uses for the execution of orders. A broker is an intermediary, such as a bank, who can execute orders or instruct third parties to execute orders. The bank ensures that brokers execute orders in correspondence with the bank's order execution policy. The bank does this, taking into account the procedures and rules described in this policy.

This list is applicable as from September 2021. Check the bank's website ([abnamro.nl/beurskenmerken](http://abnamro.nl/beurskenmerken)) for the latest stock exchange characteristics.

You can also request a copy of the stock exchange characteristics at your branch.

## A few examples

For instance, the place of execution for shares is determined as follows:

- ▶ The bank executes orders for Dutch shares directly on Euronext Amsterdam.
- ▶ The bank uses the broker Citi for the execution of orders for shares within the Europe region (excluding the United Kingdom and Euronext Amsterdam). To this end, Citi performs for the bank an automated comparison of the prices on the primary stock exchange where the shares are traded with the prices on three multilateral trading facilities (Chi-X, BATS and Turquoise). Citi uses Smart Order Routing to select the facility offering the best price for the order if the order can be executed immediately. In this process Citi takes account of the execution costs. If your order cannot be executed immediately (e.g. because the set limit cannot be achieved), Citi places your order on the primary exchange.
- ▶ The bank uses the broker UBS for the execution of orders for shares within the Far East region and the United Kingdom.
- ▶ The bank uses the broker Virtu Financial Ltd (Virtu) for the execution of orders for shares within the United States region (excl. Canada). Virtu uses Smart Order Routing (SOR) for this purpose and can also execute orders outside of a stock exchange.
- ▶ The bank uses the broker RBC for the execution of orders for shares within the Canada region. For this, RBC uses Smart Order Routing (SOR), so RBC orders can also be executed on a multilateral trading facility (MTF).

For example, as an execution venue for bonds applies:

- ▶ The bank can execute orders for bonds on an MTF. The bank sends a request for quote and then chooses the best price for executing your order, taking into account the costs of executing your order.

Later in this policy you can find a list of stock exchanges.

This list states which other investment products are traded on which stock exchange and through which broker.

Investment product	Stock exchange	Broker
Shares and warrants	Euronext Amsterdam	Direct
	Athens Stock Exchange	Citi
	Euronext Brussels	Citi
	Euronext Lisbon	Citi
	Euronext Paris	Citi
	London Stock Exchange	Citi
	Madrid Stock Exchange	Citi
	OMX Copenhagen	Citi
	OMX Helsinki	Citi
	Oslo Stock Exchange	Citi
